

**CUTTING
THROUGH
THE FOG**

Dedicated to advancing the profession of investor relations through a variety of innovative programs and forums.

NIRI SF was founded in 1977, making it one of the oldest, most established local NIRI chapters. It is also one of the fastest-growing chapters with more than 150 corporate practitioners, IR consultants and IR-related service providers, resulting in a dynamic mix of IR professionals dedicated to promoting the practice of investor relations within the business and financial communities.

We provide creative and substantive programs for our members in order that they may continue to pursue best practices in the field of investor relations - and we aim to do this in a casual setting that is conducive to networking and professional development.
